Notes:

- X denotes the chemistry eg IEX for Ion Exchange, PA for Protein A & PG for Protein G.
- All columns are foam packaged in 5 x 1 ml or 5 x 5 ml white boxes and custom labelled.
- Resin to be supplied by customer at no cost to Protein Ark-BioservUK. All surplus resin to be returned to the customer with pre-packed HiFliQ columns unless otherwise determined.
- Minimums above are based on total individual PO quantities. There is a minimum of 25 columns of one size (1 ml or 5 ml) per chemistry.
- 1 ml column requires 1.2 ml loose resin (or 2.4 ml 50% slurry). 5 ml column required 6 ml loose resin (or 12 ml 50% slurry).
- Company Logo and other labelling information to be added to HiFliQ columns at no additional cost.
- Columns can be quality control tested for HETP, peak asymmetry, binding capacity and flow properties
